SUGGESTIONS

The demands upon institutions of learning are broadening year by year, and equipment and endowment must be increased to keep pace with the demands. Alfred forms no exception to the rule. With the assistance of her friends she has been enabled to meet all requirements in the past. Relying upon a continuation of that kindly interest in her work, there is here presented for consideration a variety of channels in which substantial aid in meeting the demands of the future may be directed. Those who wish to perpetuate their usefulness and their memory, and make their deeds live after them, cannot better do so than by giving or bequeathing something to Alfred University in one of the following ways:

INCREASE IN THE GENERAL ENDOWMENT FUND, the income of which shall be at the disposal of the University for its general expenses.

THE CENTENNIAL FUND was established in 1899 with the expectation that it will amount to \$100,000.00 when the University shall celebrate its centennial. Gifts to this fund may be made from \$1.00 to \$100.00.

THE ENDOWMENT OF PROFESSORSHIPS. Twenty-five thousand dollars will fully endow a professor's chair.

THE ENDOWMENT OF SCHOLARSHIPS to pay the term bills of worthy, but needy, students. One thousand dollars will endow a scholarship.

A scholarship may be instituted conditionally upon the payment of one hundred dollars, and kept alive by the payment of not less than twenty-five dollars every two years thereafter, until one thousand dollars shall have been paid; and the beneficiary will be credited on his tuition charges with the income of the fund. In the case of scholarships founded by Societies, if twenty-five dollars or more be added to the principal annually, the beneficiary will be granted free tuition, but incidental and extra fees must be paid in cash by the beneficiary.

A LIBRARY BUILDING which will cost, say \$25 000.

The gift of books and of money to buy books.

Every gift will be used as the donor may direct. The giver of fifty dollars or more will be asked to allow his name to be used in connection with the gift in the reports of the University.

PRESIDENT'S ANNUAL REPORT

TO THE BOARD OF TRUSTEES OF ALFRED UNIVERSITY:

The President has the honor to submit his Eighth Annual Report, viz.: for the year 1902-1903, beginning June 24, 1902, and ending June 23, 1903.

NECROLOGY

Death has claimed, during the year, three aged and beloved officers of the University.

Mrs. Abigail Maxson Allen, Emeritus Professor of Archaeology, and widow of the late President Jonathan Allen, died in Alfred, Oct. 26, 1902, at 78 years of age. She studied in Alfred Academy and later in LeRoy Female Seminary, from which she was graduated in 1844. In 1846, she was appointed preceptress in Alfred Academy, and in 1849 was married to Jonathan Allen, then professor in Alfred Academy, later professor in Alfred University, and for the last twenty-six years of his life its President. Mrs. Allen was thus connected with Alfred University for more than fifty years. During all this time she taught in the faculty of the University many different subjects, but particularly art. Since the death of President Allen in 1892, she has held the rank of emeritus professor. She was a frequent attendant at the faculty meetings, and took a lively interest in all that pertained to the welfare of the University and the village. She was particularly remarkable in her ability to remember and keep in touch with all the old students. No one knew so much about so many of the former students as did Mrs. Allen. For this reason and many others, Mrs. Allen was most affectionately beloved by thousands of Alfred's sons and daughters all over the world. She was an ardent promoter of all reforms, and took a particular interest in all means for advancing the culture and attainments of women. She was a woman of rare ability and charming character, and her influence will be felt and esteemed in Alfred University for many generations yet to come.

Ira Babcock Crandall was born February 10, 1822, and died at his home in Alfred, February 12, 1903, having just passed his 81st birthday. Mr. Crandall was a native of Alfred, and a son of the late Judge Clark Crandall. His entire life was spent in this community. Mr. Crandall was a member of the Board of Trustees when the University was chartered in 1857, and he served on the Board continuously from that day until the time of his death, a period of over 46 years. Since the organization of the executive committee he had been a constant and faithful member. Mr. Crandall was a man of unselfish devotion to the interests of the University, and felt it a pleasure to perform any task that was assigned to him. His faithfulness in attending the meetings of the executive committee, even down to the month previous to his death, can never be surpassed by any official of the University.

Henry P. Saunders, M. D., was born November 24, 1821, and died February 14, 1903, at his home in Alfred. Dr. Saunders was first elected a trustee of the University in 1859, and served six years. Again he was re-elected in 1873, and served continuously until his death, a period of 30 years. Much of this time he was also a member of the executive committee. Dr. Saunders was a man of high ideals of educational attainment, and of conservative business judgment; and he was a faithful and efficient member of the board of trustees.

In the death of these two aged trustees Alfred University has lost staunch friends and supporters, men who were willing to give the University not only their wise and faithful counsels, but who were also ready to contribute of their means to carry on its work. Our love for them will abide, and their works will live after them.

Aside from these three deaths in the official staff of the University, the health of the members of the University has been well preserved. No serious illness and no death has occurred in the student body during the year.

THE FACULTY

But few changes have occurred in the faculties of the University since my last report. In the College Faculty Mr. Walter L. Greene, A. B., was last year instructor in Physical Training, and Miss Susie Saunders was appointed assistant in History. In the Academy Faculty Miss Eugenia L. Marvin, Ph. B., was appointed instructor in English, German and French, and Miss Marie Berry, Pd. B.,

instructor of the Training Class. In the State School of Ceramics Miss Adelaide M. Blanchard was appointed to the instructorship of Graphics and Decorative Art.

These persons have creditably accomplished the tasks assigned them. The other members of the faculties have remained as they were the previous year and formerly, and have uniformly done their work faithfully and well. In all there have been 26 professors, instructors and assistants. Not mentioning duplicates, there were 14 in the College faculty, 5 in the Academy faculty, 4 in the Seminary faculty and 3 in the Ceramic faculty.

For the coming year a few changes and additions are anticipated. Albert R. Crandall, Ph. D., Professor of Natural History, has tendered his resignation to take effect as early in the next college year as a successor can be obtained and installed in the department. Professor Crandall has been urged to remain until the middle of next year, and Mr. Claude I. Lewis, B. S., graduate of Boston University and of Massachusetts Agricultural College, has been secured by the committee on the teaching force to begin work in this department with Professor Crandall the first of next year, and it is hoped that this arrangement will facilitate the work of Professor Crandall's successor, by initiating him into it before Professor Crandall is obliged to withdraw from the work of the department. It is expected also that Mr. Lewis will be able to offer some courses in Agriculture, as occasion may demand, in connection with the department of Natural History.

Miss Sophie S. Reynolds, M. Lit., has resigned her instructorship in English and Expression, and Miss Alberta Oakley, B. L., has been appointed to that position for next year, also to the position of preceptress in Ladies Hall, which position Miss Berry, the present preceptress, feels unable to fill for another year.

Mr. George A. Main, who has so successfully inaugurated Machine Shop instruction in Alfred University, and who has for the past four years acted as foreman of the shop, is graduated from the college this year and is to take up graduate work and an instructorship in Lewis Institute, Chicago, next year. His position as foreman in the shop is to be filled by Mr. Allen W. Corwin.

Professor Frank G. Bates, Ph. D., who two years ago resigned the Charles Potter Professorship of History and Political Science to accept the appointment as State Librarian of Rhode Island, has

signified his willingness to return to his former position at Alfred. Since the resignation of Professor Bates this professorship has been nominally filled by the President, but the work necessarily had to be assigned to different individuals and instructors, and it has seemed wise to the committee on teaching force to arrange with Professor Bates for his return to this important professorship, for which he has shown himself to be so well qualified by training and by experience. I am very happy to report that such an arrangement has been completed. I consider it a high compliment to Alfred that a man of Professor Bates' ability and standing will resign a much more remunerative position, and return to us at his former salary, out of love for Alfred and its work.

REGISTRATION

It is a profound pleasure to report that the University continues to enjoy increased attendance and popularity as well as increased efficiency. The registration in the several branches of the University for the past year has been as follows :

The College.....	124
The State School.....	26
The Seminary.....	7
The Academy.....	172
Total	329

Of the 329 registrations, 39 are duplicates, leaving a total registration of 290 different individuals, making an increase over last year of 7 per cent. It is also gratifying to note that a large proportion of this increase is in the college, which is 16 per cent larger this year than last. The Freshman class numbers 38 and is the largest class yet registered in the University. The College graduates 13 members in its Senior class this year. Fourteen members were graduated from the Academy yesterday.

THE STATE SCHOOL

The New York State School of Clay Working and Ceramics continues to demonstrate its great usefulness to the state, doing a large amount of experimental and expert work for the state. It has been in operation only three years, but now has a registration of 26 students, and next year will graduate its first class of one member.

The annual appropriation of \$5,000 was made by the legislature for maintenance, and an appropriation of \$2,459.78 was also

made for additional apparatus and equipment, which was desirable for the best success of the work. The recognition which the state is thus giving to the school for the valuable services it is rendering to the state is a matter of great gratification to the Board of Trustees.

PEDAGOGY

A year ago Professor Charles B. Clark, A. M., was elected Professor of Philosophy and Education, and has this year established courses in Pedagogy, which have been inspected and approved by the Department of Public Instruction, and now our graduates who elect this work are eligible to Professional certificates immediately upon graduation. These courses are very popular and are elected by a large number of our Seniors and Juniors.

FINANCE

The Treasurer's Report will show most excellent work done by the Treasurer during the past year in securing additions to the endowment.

His report will show a net increase of \$12,544.37 which I am sure will be very gratifying to the Trustees. A year ago the President recommended that Mr. Crandall be employed as field secretary for so much of his time as he could be induced to apply to this work. The results show the wisdom of the plan, and I sincerely trust the trustees will authorize the Executive Committee to employ the treasurer for still more of his time if it can be obtained, and that continued efforts may be made to increase our endowments. With Mr. Crandall to co-operate with the President during the coming year, I believe that \$25,000 can be raised by the various plans now adopted, namely the Centennial Fund, the One Thousand Dollar Scholarships, and the Income Gift Fund.

Twenty-six one thousand dollar scholarships have been established in full or conditionally during the year, making a total of fifty such scholarships which have now been established.

The largest and most important single gift made during the year, or for a number of years, is the Burdick Hall, given by Mrs. Amanda M. Burdick and Miss Susie M. Burdick, widow and daughter of the late William C. Burdick. This building is valued at \$7,000. The use of it had been given by Mr. Burdick to the University for six years preceding his death. It furnishes rooms

and boarding accommodations for about twenty young men, and is a valuable and important addition to the property of the University. With the Burdick Hall and the \$12,554 of added endowment, the increase to the valuation of the University endowment and equipment during the year aggregates nearly \$20,000 besides the \$20,000 which has been pledged during the year in the unpaid balances of the 26 one thousand dollar scholarships.

PROSPECTS

The prospects for the future are most encouraging. Next year's Senior class will be much larger than any in recent years, and the Freshman class for next autumn promises to be the largest ever yet enrolled.

Public confidence in the continued prosperity of the University is steadily increasing, and the ease with which individuals can be interested to contribute to its funds is evidence of the growing loyalty and enthusiasm of the people.

The annual reports of the Registrar, the Librarian, the Dean of the Theological Seminary, the Principal of the Academy, and the Director of the New York State School of Clay-Working and Ceramics are herewith presented as a part of this report.

With sincere gratitude for the confidence and support of the Board of Trustees, and for the prosperity the University has enjoyed during the year, together with the bright prospects for the future, this report is respectfully submitted.

BOOTHE COLWELL DAVIS, President.

THEOLOGICAL SEMINARY REPORT

TO THE PRESIDENT OF THE UNIVERSITY:

The year has been a good one. There have been four students taking the full course; while eighteen or twenty college and graduate students have elected work in our school. That educated young men and women desire to study the history, doctrines, and ethics of the Bible, is most encouraging. The following is a summary of the year's work:

BIBLICAL THEOLOGY		CHURCH HISTORY	
4 students,	3 hours	4 students	2 hours
1 student	1 hour	HOMILETICS	
1 student	1	4 students	1 hour
INTRODUCTION TO THEOLOGY		TEACHINGS OF JESUS	
3 students	2 hours	9 students	2 hours
THEISM		HISTORICAL THEOL. OF O. T.	
3 students	3 hours	11 students	2 hours
HEBREW		LIFE OF CHRIST	
2 students	5 hours	5 students	2 hours
3 students	4	N. T. GREEK	
1 student	2	1 student	2 hours
N. T. EXEGESIS		EVANGELISM AND PERSONAL	
3 students	3 hours	WORK	
3 students	2	5 students	1 hour
BIBLICAL INTRODUCTION		MUSIC	
4 students	2 hours	1 student	2 hours

LECTURES

An important and helpful feature of the year has been addresses before the school by the following persons :

Rev. E. S. Hoffman, Hornellsville, 5 lectures; Rev. S. H. Davis, Westerly, R. I.; Rev. E. B. Saunders, Shiloh, N. J., 2 lectures; Rev. D. H. Davis, D. D., Shanghai, China; Rev. I. L. Cottrell, Leonardsville; Rev. W. L. Burdick, Independence; Miss Martha Berninger, Shanghai, China; Rev. L. A. Platts, D. D., Milton, Wis.; Rev. O. U. Whitford, D. D., Missionary Secretary, Westerly, R. I.; Rev. S. S. Powell, Adams Centre.

Our expenses have exceeded the income by nearly two hundred dollars; hence the need of larger endowment. And a special need is more funds for library and reading room.

We have reason to expect a considerably larger attendance next year.

I have addressed six denominational conventions, in the states of West Virginia, Rhode Island, New York, and Minnesota; and find a growing interest in our school.

Respectfully submitted,

A. E. MAIN, Dean.

ACADEMY REPORT

The Academy has enjoyed a prosperous year, with a total registration of 172, 147 of these having taken regular work, and 25 music only.

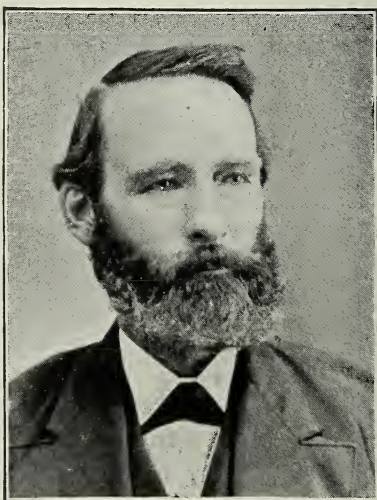

The arrangement whereby the Academy serves as a free local high school has been continued, and is working to the satisfaction of all concerned.

The graduating class this year numbered 14. Several of these will enter college next fall; others will teach next year with the expectation of entering college later.

The faculty and interested patrons are agreed that there is an urgent need for a study room in the Academy large enough to accommodate at least the first and second year pupils, who are too young to do good work without supervision during study hours. Such a room can be had if the Orophilian Lyceum can be persuaded to change their room for another room equally good and of the same size. We hope this arrangement can be made.

Respectfully,

EARL P. SAUNDERS, Principal.

Ira B. Crandall

ACKNOWLEDGMENT OF GIFTS

The Centennial Fund

This fund, the plan for which was first presented to the attention of the friends of the University four years ago, reached the sum of \$3,336.00 on June 1, 1903. Whenever one thousand dollars are subscribed and paid into the Centennial Fund from any town in the counties of Allegany and Steuben, or from any county other than Allegany and Steuben, in any state or territory, free tuition will be given to one student for the Freshman year of the College; the student to be a resident of the county contributing the money, and to be selected by competitive examination.

Burdick, and his widow, Mrs. Amanda Prescott Burdick, with loyal respect for his wishes, and inspired

with the same generous sentiments toward the University, have realized his plan for the building by deeding it to the University.

Gifts—Library

MR. JOHN J. BABCOCK, 1857-58, of Ashaway, R. I., has given to the library files of several publications and a number of books from the collection made by his father and mother, Jacob D. Babcock and Elizabeth Almy Babcock, late of Ashaway, deceased, viz:

The New York Tribune. The file begins January 25, 1859, and continues to the end of February, 1884. It is the semi-weekly edition, excepting the period beginning July 1, 1861, and ending with the year 1865, (Civil War period,) which is covered by the daily edition; some few numbers of the paper are missing, however.

An effort is being made to complete the file from the first number of the paper to date, that is to say, to procure the numbers before 1859 and after February, 1884, as well as those copies that are missing from the file contributed by Mr. Babcock. Those able to assist in completing the file are requested to communicate with H. G. Whipple, 220 Broadway, New York City.

When completed and bound, this file of papers will make an important and very valuable addition to the facilities of the library, as it will contain in considerable detail all matters of importance

which transpired in this and other countries during the period covered by the file, also comment on current events, discussions of questions of great public interest, including the editorials of Horace Greeley, which were so influential in moulding public opinion in this country during the period 1841-72, together with a mass of miscellany which can be found nowhere else so readily as in a great metropolitan newspaper.

The National Era. This was the only Anti-Slavery newspaper published in Washington. It was a weekly paper, edited by Gamaliel Bailey assisted by John G. Whittier, the poet.

The file begins with 1847 and ends in 1860, the year 1852 and an occasional number are missing, however.

The Emancipator, edited by William Lloyd Garrison. The file covers a little more than a year. Those able to assist in completing the file of this paper and that of the *National Era* are requested to communicate with Mr. Whipple.

The Christian Union, for the years 1871, 2, 3, 4, -, 6, 7, 8, 1880 1892, and parts of the years 1890, 1, -, 3, 4.

THE EDWARD THOMPSON COMPANY (Publisher,) Northport, Long Island, has presented to the library a set of the *American and English Encyclopedia of Law*, First Edition, 31 volumes, (including index of 2 Vol.) of about 1,100 pages each.

This work is well and favorably known to all lawyers; but it may be of interest to others to know that it covers the whole body of modern law. The law has been divided into such titles as seem capable of separate treatment, and the titles arranged alphabetically so as to facilitate reference. The text consists of a concrete, though full and clear, statement of the law, copiously annotated with citations to cases decided by the higher courts, including frequent extracts from the judges' opinions. By reason of the practical arrangement of the work and its comprehensive scope, the student is enabled to find the law upon any and every subject in which he may be interested, in the shortest possible time. The gift will be of inestimable value to the library.

University; Upton's "Military Tactics;" "Types of Creation," McCosh; "The Bicycle," "Plane Geometry," Thomas Hunter.

Income Gifts

These gifts are absolute; but the giver, or a person named by him, receives from the University, each half year for life, an income at a rate per cent. of the gift, agreed upon in advance, in place of the interest which the money would have earned if the donor had invested it.

A form of agreement has been prepared, adapted from a form which has been used for many years by one of the largest missionary societies in this country. That society has received hundreds of thousands of dollars in this way, and the plan has worked to the mutual satisfaction of the donors and the society.

Gifts made in this way are not subject to Inheritance Taxes, which, in many States, materially diminish gifts made by will.

COMMITTEE ON JANITORS AND SUPPLIES

During the year ending May 31, 1903, the committee incurred bills aggregating \$2,380 35 for the following purposes:

	EXPENDED	APPROPRIATED BY BUDGET
Janitors.....	\$ 711 92	\$ 715 00

Monarch Water Heater Ladies Hall (order Ex. Com.).	71 46	
	<u>\$2,380 35</u>	

Concerning the last named item the Committee would say that ever since the bath room was installed in the Ladies Hall there has been more or less trouble from the deposit of lime salts in the hot water pipes and heater. The accumulations became so excessive during the past year that the system was completely clogged, and had to be overhauled. The location of the old heater was so inaccessible that it could only with difficulty be regulated and was expensive in the consumption of gas. In the interest of economy, therefore, the Executive Committee authorized this committee to spend the necessary funds to put in an automatic heater. As the water in this heater never reaches the boiling point and the gas is instantly shut off when the faucets are closed, it is believed that the precipitation of mineral salts will be largely avoided, besides effecting a great saving in the use of gas.

The Dormitories have both done fairly well, financially, Burdick Hall showing net receipts of \$231 03, a gain of \$59 35 over last year; Ladies Hall net receipts \$535 94, a loss of \$176 34. Every available room in Burdick Hall has been occupied most of the year, the number of students being nineteen besides Preceptor Jordan and his family, who have conducted a successful club on the ground floor. The students and teachers renting furnished rooms in the Ladies Hall numbered only eleven, the smallest register in several years. The revenue derived from this source, taking into account the corresponding decrease in dining room receipts, was about \$250 less than last year, but this was partially offset by increased rentals from summer visitors. A statement in summary is herewith appended:

Three systems of scholarships are in force in the University, as follows:

TEN PER CENT SCHOLARSHIPS. These were established many years ago on the following terms: The University agreed to pay, by allowance upon tuition fees, ten per cent per annum on moneys donated to its funds; but the founders of the scholarships were not to use them to the detriment of the University by selling, renting or leasing them, although they might donate the use of them to any person or persons who depended entirely upon their own exertions to defray their educational expenses. Incidental and extra fees, however, must be paid in cash by the beneficiaries of the scholarships.

ONE THOUSAND DOLLAR SCHOLARSHIPS. ACT OF 1894. These may be established conditionally on the payment of \$100, and they will continue in force so long as payments are made amounting to at least \$25 in two years; but they become permanent when the sum of \$1,000 is fully paid. The owner of a scholarship is entitled to keep one student in attendance at the University whose tuition fees, incidental fees, and extra fees, will be paid out of the income of the principal fund, if the income is sufficient to pay the same, but if not, the remainder of such fees must be paid in cash by the student. Societies endowing scholarships conditionally, and paying at least \$25 a year toward the principal, will be allowed free tuition fees for one student every year; but the student must pay incidental and extra fees in cash.

COMPETITIVE FREE SCHOLARSHIPS. These are granted, under certain conditions, to pupils in the High Schools in the counties of Allegany, Steuben, Cattaraugus, Livingston, and Wyoming, New York; and the counties of McKean, Potter, and Tioga, Pennsylvania. They are limited to students fully prepared for college, and exempt the holders from payment of tuition and incidental fees, but require the payment in cash of the nominal sum of \$2 a year.

*Including \$1,000 paid by Union Free School District No. 3.

†Including \$1,200 paid by Union Free School District No. 3.

Elmer S. Redman, A. M., Ph. D.,	Hornellsville, N. Y.
---------------------------------	----------------------

Elmer S. Redman was born in Allen, N. Y., in 1861. Being left fatherless at an early age, he has had his own way to make. He received his early education at the Genesee Valley Seminary at Belfast, N. Y. At nineteen he was principal of the Village school at Moscow, N. Y. The next year he was principal at Portageville, N. Y. He next pursued the classical course at the Genesee State Normal School, where he graduated with the highest honors. He was then principal of the Union School at Angelica, N. Y., for three years and of the High School at Belfast, N. Y., for three years. In 1889 he commenced work with the Illinois Wesleyan University for the degree of Ph. B., which he received in 1892. He also did post graduate work with this University and received the degrees of A. M. in 1894 and of Ph. D. in 1898. After six years as Superintendent of the Village Schools at Rockville Center, N. Y., he commenced his work

as Superintendent of the City Schools at Hornellsville, N. Y., where he has been for the past five years. Dr. Redman is a member of the Baptist Church, an active member of the National Educational Association, and Vice-president of the State Council of School Superintendents. He is much in demand at institutes and other educational meetings where his earnestness and frankness make him a favorite instructor. He is an educator of influence and ability in the state, and Alfred University is glad to recognize his merits.

Doctor of Letters (Honorary)

Rev. Frank Samuel Child, D. D.,

Fairfield, Conn.

Frank Samuel Child was born in 1854. He prepared for College at Leonardsville Public School and Whitestown Seminary, and graduated at Hamilton College with the Literary Honor, in 1875. He graduated at Union Theological Seminary in 1878, and entered upon the profession of the Gospel Ministry. He is now pastor of the Fairfield Congregational Church: one of the oldest, strongest and most influential churches in New England. Dr. Child has been for many years a writer for the Press on literary and historical subjects, and a frequent lecturer on the same themes, before schools, colleges, patriotic and historical societies, etc. In 1897 he received the honorary degree of D. D. from Hamilton College and also from Elon College, N. C. He is President of the Fairfield Historical Society and of the Fresh Air Home. He is a corporate member of the American Board of Foreign Missions. He is a Trustee of the Fairfield Memorial Library, The Aged Christian Minister's Home, Palmer Institute and Alfred University. He is also a Trustee of the Francis Asbury Palmer Fund in New York. To these and many other benevolent enterprises Dr. Child is giving much of his best thought and effort. But it is in literary achievements that Dr. Child is most widely known. Aside from his numerous articles constantly appearing on literary and historical subjects, he is the author of the following well known works, viz: "The Friendship of Jesus," "Be Strong to Hope," "The Boyhood of Henry Ward Beecher," "An Old New England Town," "A Colonial Parson," "A Colonial Witch," "A Puritan Wooing," "An Unknown Patriot," "The House with Sixty Closets," "The Little Dreamer's Adventure," "Friend or Foe."

Corliss Fitz Randolph, A. M., 1888,

Newark, N. J.

Corliss Fitz Randolph was born at New Milton, W. Va. in 1863. He prepared for College in the public and select schools of West Virginia and graduated in the Classical course in Alfred University in 1888. After eight years of successful public school work he entered Columbia University as a graduate student in the classics. After one year's study he

was awarded the Henry Dressler Fellowship in Classical Philology and continued his studies for two years more. In 1899 he re-entered Public school work in Newark, N. J. and is still engaged there. Mr. Randolph has distinguished himself as a student in Classical Literature and Philology and has rendered valuable service as a lecturer on these subjects in Alfred University. He is also a frequent writer on historical and literary subjects. He was elected a Trustee of Alfred University in 1895, and in 1902-1903 was President of the Alumni Association of his Alma Mater.

Doctor of Laws (Honorary)

Hon. Seymour Dexter, Ph. D., '64, Elmira, N. Y.

Seymour Dexter was born in Independence, N. Y., in 1841. At fourteen years of age he entered Alfred Academy and continued his studies here at intervals until the spring of '61, when, fifteen days after the first gun of the Rebellion was fired at Fort Sumpter, he left his studies to enlist in the Twenty Third Regiment N. Y. S. Volunteers. In the fall of 1863 he returned to resume his studies and graduated in the class of 1864. After graduation he entered upon the study of law in Elmira, N. Y., and was admitted to the Bar in May, 1866. His ability and sterling qualities of character made his progress a steady ongoing. In the spring of 1872 he was elected City Attorney, and in the autumn of the same year, he was elected to the legislature of New York State. In 1877 he was honored with election as Judge of Chemung County. To this position he was re-elected, holding the office for twelve years. In 1889 he resigned his Judgeship to accept the Presidency and business control of the Second National Bank of Elmira, which position he still holds. For nearly thirty years he has been President of the Chemung Valley Mutual Loan Association. In 1892 he organized the United States League of Local Building and Loan Associations, and was elected President at its first annual meeting in 1893, and again in 1894. In 1889 he published an important work entitled, Co-operative Savings and Loan Associations. This work at once gave him rank as an authority on all Loan Association matters. The United States League of Local Building and Loan Associations, at the annual meeting of the League in Indianapolis, in appreciation of his labors and endeavors in the organization of the League, and in the cause of home building and home owning in the United States, gave him a very fine loving cup. Aside from his business and professional services Judge Dexter has found time to do a large amount of literary and lecture work. He has been a close and thorough student of political, economic, social, and religious problems, and has written and lectured much upon these subjects. In 1885 he was elected a trustee of Alfred University, and has continued an efficient member of the Board since that time. In 1886 his Alma Mater conferred upon him the honorary degree of Ph. D. A man of broad scholarship, and philanthropic impulses, he is a recognized leader in all reform movements of his community and of the state. As a loyal alumnus of the University, he has ever sought to promote its interests and to broaden its usefulness.

Alexander Cameron MacKenzie,

Elmira, N. Y.

The Reverend Alexander Cameron MacKenzie, born in Oxford, Canada, is a representative of a family widely known as clergymen, authors and educators throughout Great Britain and Canada. In the same year he accepted the pastorate of the Presbyterian church of Owego, New York, which he held for twelve years. In 1897 he was called to the presidency of Elmira College, Elmira, New York, which position he still occupies. As pastor and as president he has been successful in all that he has undertaken. In addition to academic honors conferred upon him Dr. MacKenzie has received marks of confidence and appreciation as a clergyman, author and educator, having been elected moderator of the Presbyterian synod of New York; a member of the Presbyterian Historical Society of the United States; and one of the college committee of the regents of the University of the State of New York. The comprehensive scholarship, administrative ability and inspiring personality of Dr. MacKenzie enables him to fill an important place in the educational world.

Professor Harry Thurston Peck, L.H. D.,

His Address before the Alumni Association of Alfred University in 1903 was most thoroughly welcomed and enjoyed by all.

Hon. T. Guilford Smith, A. M., C. E., LL. D., Buffalo, N. Y.

T. Guilford Smith was born in 1839. He graduated at the Central High School of Philadelphia in 1858 with the degree of A. B. and with the degree of A. M. in 1863. He has also served as President of the Buffalo Library, and the Buffalo Fine Arts Academy, and is now President of the Charity Organization Society of Buffalo, and the Buffalo Society of Natural Sciences. Aside from the large business and philanthropic interests which Mr. Smith has served, he is rendering distinguished services in the field of education. In 1890 he was elected Regent of the University of the State of New York, and is devoting an unusual amount of time and energy to advancement of the educational interests of the state. He has twice addressed the Alumni Association of Alfred University. First at the dedication of the Babcock Hall in 1898 and again at our recent Commencement. In many ways he has shown himself a valuable friend and advisor of Alfred University, and he is therefore welcomed most cordially among its honorary alumni.

Hon. Frank Sullivan Smith, A. B., LL. B., Angelica, N. Y.

Frank Sullivan Smith was born in 1851. His father, was Dr. William M. Smith, one of New York State's most noted Surgeons, and Health Officer of the Port of New York from 1880 to 1892. He prepared for College at Angelica, N. Y., and graduated from the Academic Department of Yale University in 1872 with the degree of A. B. After graduation from College he served three years as School Commissioner of the Northern District of Allegany Co., N. Y. In 1877 he was admitted to the Bar and began the practice of his chosen profession of Law. His scholarship and ability in his profession rapidly won for him marked distinction, and in 1887 he was offered the Deanship of the School of Law of Cornell University, but he chose to continue in the practice of his profession and soon opened an office in New York City, where he still continues his extensive practice at 54 Wall St. In 1877 he was married to Clara A. Higgins of Rushford, N. Y. Among the prominent business positions which Mr. Smith has held may be mentioned the following: President of the Allegany Central Railroad Co.; Vice President of the Lackawanna & Pittsburg Railroad Co.; Vice President of the Central New York and Western Railroad Co.; Vice President and General Counsel for the Pittsburg, Shawmut & Northern Railroad Co. He has been Counsel to the Receiver of the Richmond and Danville Railroad; General Counsel of the Scioto Valley Railroad; the Rome & Decatur Railroad Company, and Attorney for the Pittsburg, Bessmer & Lake Erie Railroad Co., and the Buffalo, New York & Philadelphia Railroad Company. In 1884 he was delegate to the Republican National Convention at Chicago, and from 1887 to 1891 was Secretary of the Republican State Committee. Aside from his many business and public services Mr. Smith finds much time, and devotes a generous part of his ability and enthusiasm to the work of education.

In 1901 he was appointed by the Court of Appeals of the State of New York, a member of the State Board of Law Examiners, which position he still holds. He is a member of the Association of the Bar of the City of New York, of the University, Yale, Barnard, and Republican Clubs of the City of New York, also of the Society of Medical Jurisprudence, and the New York Commandery of the Loyal Legion. But more important for Alfred, he is a much esteemed and a highly valued member of the Board of Trustees of Alfred University.

Hon. Philip T. VanZile, Ph. D., 1863.

Detroit, Mich.

Philip T. VanZile was graduated from Alfred University in 1863. He then spent two years in the service of his country, remaining until the War closed. After the War he studied law in the Law Department of the University of Michigan, from which he graduated in 1867. In 1868 he was elected Prosecuting Attorney of Eaton Co., Michigan. After four years he was elected Judge of the Probate Court and subsequently, Judge of the Fifth Judicial Circuit court of Michigan. During the trouble with the Mormons in Utah, at the earnest solicitation of the President, he accepted in 1878 the office of the United States District Attorney for Utah and remained six years in that position. By vigorous prosecution and the advocacy of New Anti-Mormon legislation, he was able to break the back of the Mormon Control in Utah. Since 1884 he has resided in Detroit, Mich., where he has rendered distinguished services in the Legal profession. He has served five years on the State Board of Law Examiners, and for thirteen years has been Dean of the Detroit College of Law. Judge VanZile has always been a loyal and enthusiastic alumnus of the University, and was chosen by the class of 1903 to deliver the Doctor's Oration at Commencement.

ALUMNI ASSOCIATION OF ALFRED UNIVERSITY

(Incorporated—1886—New York)

This society is incorporated under Chapter 268, Session Laws of New York, 1882, as amended by Chapter 262, Session Laws of 1884. See Appendix E.

The Society includes all graduates of the University, all persons who have received degrees from it, members of the Faculty, and former students who have been in attendance for one year or more. The annual fee is one dollar.

The objects of the Society are to foster fraternal intercourse and sympathy, and the interest of its members in their Alma Mater, as well as to promote the welfare of Alfred University.

At the time of its organization in 1886, the Society established a perpetual fund for the benefit of the University, giving it the name of the KENYON-ALLEN ENDOWMENT FUND. This fund now amounts to upwards of \$10,000. The Society has adopted a form of pledge to pay, for the benefit of the fund, ten dollars a year for ten years, see page 85 below. Pledges or contributions in cash are solicited, and will be duly acknowledged and added to the fund. The income of the fund is used, in part to defray the expenses incident to a course of lectures annually before the University, and in part to assist in the payment of the salary of the President.

Bequests and devises are also acceptable.

The Society is represented on the Board of Trustees of the University by nine trustees, three of whom are elected each year for a term of three years.

The Annual Meeting of the Society is held on Wednesday of Commencement Week, the whole day being given over to the Society.

ALUMNI DAY, JUNE 24, 1903

Class Reunions

Three or four classes had planned for reunions, which resulted in as many enjoyable meetings.

Representatives of the class of '88 arranged to have a reunion of their class of thirty members, in 1908, the twentieth anniversary of their graduation.

Directors' Meeting

The Board of Directors of the Alumni Association held its annual meeting in the office of the President of the University at ten o'clock A. M. The usual routine of business was transacted, including an appropriation of Five Hundred Dollars to the General Fund of the Treasury of Alfred University, and One Hundred Dollars for the use of the Lecture Committee, both for the year of 1903--1904.

Meeting of the Alumni Association

The Alumni Association held its annual meeting in the Chapel Hall of the Academy. After the Invocation by the Rev. Stephen Burdick of Andover, N. Y., a vocal solo was rendered by Judson Rosebush of Alfred.

CORLISS F. RANDOLPH, of Newark, N. J., the president of the association, presented the opening address. He sketched briefly, the history of the association, speaking of its growth in membership, the establishment and growth of the Kenyon-Allen Endowment Fund and of the influence exerted by the association in behalf of the University Library and of the reorganized department of Physics and Chemistry.

He emphasized the power of the influence of the Alumni, and the dependency of their *Alma Mater* upon them. He pointed out lines of work in which the association could profitably engage for the benefit of the University, and the strengthening of their own organization.

HARRY THURSTON PECK, Professor of the Latin Language and Literature in Columbia University, delivered an eloquent address upon University Spirit. Without detracting in the least from the loyalty college men owe their respective *Alma Maters*, he urged that separate and apart from the colleges which fostered them, all college and university men have a community of interest,

a community of spirit,—in short, a community of life. This common fellowship carries with it a corresponding obligation of loyalty—loyalty to each other, and loyalty to the larger and higher life they represent.

This life was exalted by the speaker, and the power of its subtle influence strongly emphasized.

The speaker deprecated the tendency of American life which produces intense mechanical and business specialists without college training, which makes inventors, and not discoverers; and pointed out how the man of university training, is, in the last analysis, the superior of a man of any other type of training, however thorough and efficient he may be as a business or mechanical expert.

Brief addresses were made by Daniel Lewis of New York City, T. Guilford Smith of Buffalo and President Boothe C. Davis.

Phillip T. VanZile of Detroit, Michigan, indulged in many reminiscences of the earlier student life of Alfred.

During the afternoon, vocal solos were rendered by Mrs. R. C. Taber of Tonawanda, N. Y., and Neil Annas of Alfred.

Alumni Banquet

The Alumni Banquet was held in the evening, in the dining hall of Ladies Hall. During the evening, toasts were responded to as follows:

ALFRED UNIVERSITY. PRESIDENT BOOTHE C. DAVIS, who, in his usual genial manner, welcomed the Alumni upon the occasion of another visit to their *Alma Mater*.

THE LAW. PHILIP T. VANZILE. Mr. VanZile exalted the law above all other professions, and spoke at some length in a semi-ironical and semi-humorous vein.

THE ALUMNI ASSOCIATION. DANIEL LEWIS. Before proceeding to his theme, Dr. Lewis paused long enough to reply in behalf of his profession, to Judge VanZile's remarks upon the law, and then addressed himself to the task of securing subscriptions to the Kenyon-Allen Endowment Fund. Subscriptions were offered to the amount of one thousand dollars. See page 85.

LITERATURE. HARRY THURSTON PECK, the editor of the *Bookman*, plead for the recognition of literature as a profession, and maintained that until it was accorded such a recognition, the status of current literature would always remain unsatisfactory.

THE CLERGY. THE REV. EDWIN S. HOFFMAN upheld the dignity of the clergy, and pointed out the magnificent opportunity enjoyed by them for exerting a powerful influence for good in all the walks of life.

POLITICS. ISAAC B. BROWN plead for the recognition of politics and the politician as factors to be reckoned with, not only in state but in society.

THE REGENTS. T. GUILFORD SMITH of the Regents of the University of the State of New York, spoke of the pleasant relations existing between Alfred and the State University. He presented in outline a plan for a free circulating library adapted to rural life. The Association endorsed the plan, and recommended that the Regents proceed to put it into operation.

THE FACULTY. ALPHEUS B. KENYON. After a humorous allusion to each member of the Faculty, Professor Kenyon set forth in forceful and eloquent words the high ideals entertained by the Faculty of the trust committed to their hands, and pledged anew the continuance of the same faithful and conscientious endeavor which had always characterized their work.

THE CLASS OF '03, SUSIE C. SAUNDERS. Miss Saunders spoke earnestly of student life in retrospect, and presented a courageous and hopeful prospect of life to those who with her self were just leaving their *Alma Mater*.

THE THEOLOGICAL SEMINARY. THE REV. ARTHUR E. MAIN. Dean Main spoke earnestly, though briefly, of the influence of Theological Seminaries upon the religious thought of the world, and of the efforts making at Alfred in that direction.

THE SCHOOL OF CERAMICS. CHARLES F. BINNS. Professor Binns drew attention to the work already accomplished by Alfred's school of Ceramics, and gave a glance at the future which lies before it.

After the response to the last toast HENRY M. MAXSON, President elect of the Alumni Association, was introduced and after an acknowledgment of the honor conferred upon him by his election, indulged for a short time in reminiscences of the days of his student life at Alfred.

SUBSCRIPTIONS

To the KENYON-ALLEN ENDOWMENT FUND received at the Banquet to which is added those that have since come to hand.

The ENDOWMENT FUND COMMITTEE will be pleased to receive contributions and pledges from the Alumni and others interested in the movement to increase the fund to \$20,000.

DIRECTOR'S REPORT

TO THE PRESIDENT OF ALFRED UNIVERSITY,

Sir:— I have the honor to submit to you the third annual report of the New York State School of Clay-Working and Ceramics.

In presenting from year to year the report of the work of such an institution as this, there must of necessity be a degree of repetition. Class instruction, experimental work, examination of materials go on with but little variation, as indeed it must be upon the steady prosecution of these that the success of the school depends.

At the close of the school year 1901-02, Miss Tourtellotte resigned her position as instructor in the art department and the Managing Board, after due deliberation, appointed Miss Adelaide M. Blanchard of Boston to the position. Miss Blanchard is a graduate of the High School of Uxbridge, Mass., of the State Normal School at Worcester, Mass., and of the Massachusetts Normal Art School at Boston. She has also studied water color with teachers in New York and design under Mr. Arthur Dow at Ipswich. She has taken a post graduate course in Artistic anatomy at the Massachusetts Normal Art School and has studied in the life class at the Boston Art Club and in the Denman Ross School of Design in Boston. Miss Blanchard has had considerable experience in teaching, having filled positions in Boston, Worcester and Barre, Mass., New York City and Los Angeles. Her work here is proving quite successful. The students are making good progress under her instruction and she herself is developing a keen interest in the special problems of clay-working which fall under her notice. I may perhaps remind you that an intelligent grasp of the principles of applied design can only be acquired when the possibilities and limitations of the material to be used are fully understood. From the day of opening, this school, while encouraging the development of coarse wares for construction purposes, has devoted considerable attention to the production of artistic pottery and already important results are being realized.

An exhibit of wares, many of them made from the shale deposits of the surrounding hills hitherto used only for brick and tile, has been sent to Albany, and may now be inspected in the Capitol.

A further collection was lent to the New York Society of Ceramic Arts in the fall of the year and awakened much interest; while exhibitions to be opened at Worcester, Mass., Syracuse, N. Y., and Ithaca, N. Y., have made application for a display.

The important point to be considered in these exhibitions is this, that whereas collections of pottery made in the Manufactory are produced under secret processes, those made by students of this School are sent out as educational exhibits, and the knowledge of how they can be manufactured is at the disposal of any one who will enter the school and perform the required work.

A request has also been made by the State Normal School at Buffalo for a collection of wares to be used in connection with the instruction in Art, and these are in course of production.

The register of students for the year numbers 26, of this number 18 are residents of the State and 7 are from other states and 1 from Japan. The last named gentleman is a graduate of the Tokio Technical School and he has entered the State School with the view of studying American clays. He is doing excellent work. Of the remaining students one is a graduate of the Massachusetts Institute of Technology, one is in his Junior year, four are Sophomores, nine are Freshmen and the remaining nine have entered for special work and short courses. Five of the students are young women who are studying in the Art department.

The work in Technology consists in the examination of materials from all parts of the country. This is carried on by the students under my own supervision and comprises tests of plasticity, density and color, and fusibility. For the last named a small furnace of German make has been purchased. This is burned by natural gas and is capable of developing very high temperatures. Among the other problems in course of investigation by the students may be mentioned the nature and composition of artistic, dull surface glazes, the coloring of clays for Terra Cotta; the losses involved in the manufacture of stoneware; the proper composition of Hotel China; the construction of hard porcelain; and the composition and structure of certain ancient wares. The last named problem offers a fruitful field for the energies of art students, since many of the beautiful wares of ancient times have been neglected, and are in danger of being forgotten.

During the year 33 samples of clays, shales and other materi-

als have been received for examination and I may mention that had these been handed to a private analytical chemist the cost to the owners of the material would have amounted to many hundreds of dollars and even then nothing more than a chemist's report would have been secured

The experience of clay workers shows that the technical and physical problems are at least as important as the chemical, and in this school the endeavor is made to give both the chemical, and the physical tests. From within the state these samples came from Allegany, Cattaraugus, Chemung, Erie, Genesee, Niagara, Onondaga and Steuben Counties; and outside, samples from the States of New Jersey, Illinois, Kentucky, Missouri and Pennsylvania. This large amount of experimental work carried out on a large scale, taxes the resources of the school severely, and it seems likely to speedily outgrow our present facilities. It is obvious that with a full schedule of study students cannot give a great amount of time daily to this work, and, in the available time, it is not possible to complete a practical test in a shorter period than two weeks. It will therefore be seen that in the school year, of forty weeks only about twenty samples could be run without unduly high pressure. It is even now becoming evident that, if the school is to be effective as an experiment station for the State, paid assistance must be provided in the near future.

The increase in the student body of men who have already had practical experience in factories is most encouraging. These students look keenly to the reputation of a school and its faculty and present themselves where they can secure the most practical results.

I wish to acknowledge the obligation of the School to the legislature of 1902, for the additional maintenance appropriation of \$2565.00 which has enabled the school to possess an adequate kiln house and fixtures and to plumb the main building for gas and water, improvements which were greatly needed. I must, however, point out that to maintain the work on its efficiency and to accommodate the increasing body of students, a considerable outlay upon small apparatus is important. The equipment of grinding machinery has become quite inadequate; and, as an illustration of the narrow margin upon which the work is carried, I would state the fact that the whole of the experimental work has been done with a single pair of scales.

My own work has been continued as usual. I have conducted the necessary classes, supervised the laboratory work, directed the efforts of the students each in his individual line, and have assisted with my own hands in the practical experimentation on clays. The question of clay working in schools has been brought under my notice, and with the view of promoting this study, I have attended Association meetings at Belmont and Almond and the gatherings of Training Class Teachers and Science Teachers at Syracuse, speaking in each case to the assembled teachers. I have also invited the Training Class, which meets at Alfred, to attend the school weekly for practical instruction. This they have done to their great advantage and satisfaction.

Calls for technical assistance have repeatedly been received and willingly responded to and investigations are still going on with the view of solving difficulties of manufacture.

I attended the meeting of the American Ceramic Society as usual and am exerting every possible effort to advance the technical work of the country.

The financial statement for the year is appended.

Respectfully yours,

CHAS. F. BINNS, Director.

Alfred, January 1, 1903.
